

Stall Catchers: QUICK START GUIDE

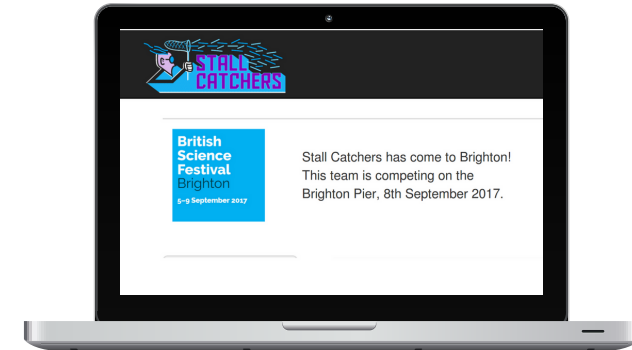

Step 1. Head to *StallCatchers.com* & click *Join now!*

Step 2. Watch a short Tutorial (optional) & Register

Step 3. Join a team of your choice

HOW TO PLAY:

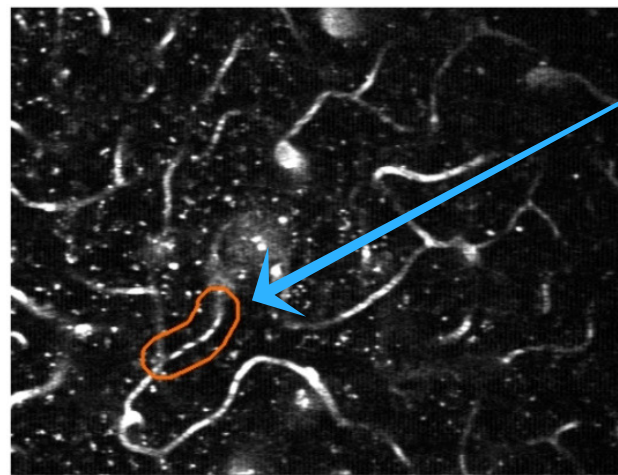

Play a movie

with the slider below. As you move back & forth, you're looking at different layers of brain tissue.

Does the blood (white) appear to be moving through the vessel? If so, the vessel is

Flowing

Click the "Flowing" button to record your answer.

You're analysing one vessel at a time

It's fully enclosed by an outline, appears at the centre of it and follows its shape.

Are there any black "gaps" that appear stuck & don't move as you scroll through the layers? If so, the vessel is **Stalled**.

Click the "Stalled" button to record your answer.
